

## Black Forest Hobby Discount Code and Information

- The custom code is **AZGRC10**
- The code is good on any item in our store – there are no restrictions.
- Members may use the code as many times as they like up until **12/31/22** (we can issue a new code for 2023).
- Minimum order is \$25 to use the code (we accept orders below this value, but the code will not be able to be used).
- A note on shipping:
  - Note that we are part of a larger group called Interlaken Brands who owns a number of different stores – these stores share large commercial fulfillment centers that we use to ship/distribute our items.
  - As such it can take a few days for items to ship (generally between 1-5 business days).
  - Note that our stock levels are usually very accurate but mistakes can happen. If an item is out of stock or will be delayed, we will absolutely reach out via email and let the customer know – our customer service team is extremely responsive.
  - The best way to get hold of the team is by using our customer service email at [info@blackforesthobby.com](mailto:info@blackforesthobby.com)

Below is a screenshot on where users will need to enter the code at checkout – in the Coupon Code box at the bottom of the cart page.

The screenshot displays a shopping cart with two items:

- Walthers Proto  
Walthers Proto 920-584408 HO Scale Replacement Geared Driver Assembly (Diesel Wheelset) pkg(2) -- For Early PROTO 2000(R) BL, FA, GP7/9/18/20/30/60 & PROTO 1000(TM) F3,RS2,RSC2 \$5.96
- Piko  
Piko 62001 G Scale Sonneberg Loco Shed \$291.99

Below the items, there are two input fields:

- Coupon Code:** A text box containing "AZGRC10" and an "APPLY" button. This area is circled in red.
- Gift Certificate:** A text box with "Add Certificate" and an "APPLY" button.

On the right side, the order summary shows:

- Subtotal: \$316.56
- Shipping: [Add Info](#)
- Tax: \$25.16
- Grand total: \$341.72

At the bottom right, there are "CHECK OUT" and "PayPal" buttons, along with a "venmo" button and the text "Skip the password. Check out now."
